16th September 2019

Dear Parents/carers,

As part of the Science topic 'animals including humans' Year 1 will be learning about different senses. They will be taking part in a lesson next Friday 20th September. I will ask the children to become 'sense detectives'. They will be required to problem solve and perform simple tests in the context of investigating each of the five senses. They will then gather and record data to help in solving the puzzle.

To participate in the taste section of this problem solving the children will sample small amounts of apple, salted popcorn, olives, raisins and lemon.

The children will also take part in a smell section of the problem solving. They will smell different essential oils and food extracts. No nut extracts or nut containing foods will be used.

Please could you make Miss Tweed or the school office aware if your child has allergies or sensitivities to food that we are not aware of before 8:30 am on Friday 20th September.

Yours sincerely

Mrs J Callaway
Headteacher
