Dear Parents and Carers,

Safer Road Watch Team

We have recently been contacted by a member of the above group, headed by the Police.

The group are concerned about the speed drivers are going along Caldly Road and the safety aspects implicitly involved, as well as Heavy goods vehicles using the road, which they say are potentially damaging to residential sandstone properties in the area.

I have been requested as Headteacher of Avalon School that I make staff, parents and carers aware that shortly a group of vetted volunteers will be issued with Handheld Speed Radar guns and that they will be operating speed checks along Caldly Road and the local area, to report to the local police.

The group are hoping to establish that a 20mph speed limit would be more appropriate than the current 30mph for Caldly Road. As you know, this is something that we have long been campaigning for at Avalon too.

Yours sincerely

Mrs J Callaway
Headteacher
